***Coat of Many Colors* is an 32 hour introduction to a versatile, practical, easy to use, dolphin inspired healing system.**

**How did dolphins inspire the development of this course?** Instructor, Kathryn Jensen, learned these techniques from dolphins, ascended masters and the Indian Avatar, Sathya Sai Baba. She received instructions telepathically as she worked with clients. She learned techniques experientially as she spent hundreds of hours swimming with wild dolphins

**Who can benefit?** Anyone wanting to stay in a state of Grace through every breakdown, every locked in fear moment, every happy occasion, and every very ordinary life event can benefit.

**What's unique about this healing system?** The course is dolphin inspired. People experience the high frequency joy, love and support of dolphins as they use these course materials and view video of spinner dolphins and their human friends in Hawaiian waters. This is footage is of Kathryn Jensen's human friends and dolphin friends whom she swims with almost daily seven months of the year.

Students who activate the rays via *Coat of Many Colors* methods and materials, do indeed experience visions, cetacean sounds, and smells (fish and salt). Some have received direct telepathic communications!

Dolphins are master healers known for their joyful, peaceful ways. Dolphins maintain community peace, inner peace and a state of joy by constantly bathing one another in light filled healing frequencies. Dolphins provide human beings with an elegant, powerful model for healing and living peacefully in community.

**What will you learn?**

- You will learn to use twenty healing frequencies to eliminate stress and live your daily life in a centered, focused, joyful state

The frequencies are called The Twenty Rays of Christ Consciousness. Each ray is housed in one of the seven major human energy centers called chakras. Each ray is

represented by a color and a geometry. As these rays are activated, through healing, the human energy field becomes a vibrant, colorful *Coat of Many Colors*.

- You will learn to balance each of the seven major chakras. Each balance will introduce you to the species of dolphins that fill the human chakras with specific communication that enhances your ability to follow your soul's code.
- You will learn skills for becoming the master you are!

\*You will learn self muscle testing or muscle biofeedback with the intention that feedback is direct, concise feedback from spirit.

\* You will learn the art of setting a precise, powerful intention for your self-healing sessions.

\*You will create a special course of action for your life based on your life's purpose and your specific commitment to loving yourself out of fear in this incarnation. You'll be lead into deep contemplation on these matters. You will be contacted by **your** guardian dolphin. Yes, you each have a dolphin that can't wait to greet you help you love yourself enough to become the love you are.

\*You will learn more about taking charge of healing your fear and as you effectively manage your life.

\* You will learn more about stair stepping yourself to ascension while remaining a productive, conscious, stable member of your family, your community and the world at large.

\*You will learn the truth behind the healing commitment dolphins and whales have made to the human species.

### **Fascinating Facts**

\*There are fourteen species of cetaceans who specialize in activating the human force field.

\*These fourteen species flow specific rays to specific areas of earth. Each ray of Christ Consciousness is activated by dolphins and whales

#### **\* An Amazing Example!**

The humpback whales, who migrate between Hawaii and Alaska, pulse the **indigo blue Ray of Courage, represented by the geometry called the Vesica Pisces**, to the Hectate Straight that's above Vancouver Island and flows between The Queen Charlotte Islands and the coast of British Columbia. The **Ray of Courage** flows from this point through the Earth Grid to the first chakra of Earth at Mount Shasta. Those who activate the Ray of Courage, in their own human forcefields, summon support from the humpbacks, in healing fear based patterns,

through activation of this Ray called Courage.

## What Students Say

**Aleia Shaum, Evergreen Colorado (fall 2007)**

I am thankful everyday for your willingness to share the Coat of Many Colors. It is a very useful tool for healing myself and others. Your inspiring and thorough presentation of the material both in print and workshop format make it very user friendly for me. I love the way you blended information, experience, and practice into our workshop. The workshop was well planned and spontaneous giving us time to learn, reflect, and enjoy each other. Just in the 6 weeks since learning this material I have done multiple balancings on myself which have cleared fear based patterns, anchored positive goals and deepened my Spiritual practice. I used the material with great success to do a group balancing in one of my women's workshops. I have used parts of this material to work with individuals over the phone and in person. I feel honored to be trained in the Coat of Many Colors because its authenticity reflects the inspiration of so many sources current with the present transformation. A very sincere heart centered thank you to you (K. Jensen), your guides and the whales and dolphins.

**Barbara Miller, Homeopath, Elbert Colorado (winter of 2006)**

I've been using the techniques I learned in *Coat of Many Colors* to help my homeopathy patients stabilize and calm down. I teach patients to use relevant techniques from the course to manage stress and make beneficial energetic shifts. I found the course materials helpful in coping with and healing from a serious case of the flu.

**Kathryn Jensen, The first student and only instructor of *Coat of Many Colors* - (winter of 2004)**

I've used the Twenty Rays many times daily over the past several months to help me through very big family challenges and the challenge of re-building a house that burned down. I've emerged from this difficult time being more physically and emotionally resilient than I've ever been before. The course techniques have added unbelievable depth and effectiveness to my healing work with others.

**Instructor, Kathryn Jensen**, worked with children with special needs in the public schools for several years. In 1987 she began her training as a specialized kinesiologist emphasizing Brain Gym [www.BrainGym.org](http://www.BrainGym.org). She opened a private practice and has, since '87, provided services to very special children and adults devoted to spiritual and personal transformation.

She has developed very effective ways to work with children who are now recognized as Indigo or children. They are frequently labeled A.D.D., learning disabled, or right brain dominant.

Six years ago Kathryn began doing gentle energy healing with children. One child after another had delightful, fun-filled, joyful dolphin visions. The children also experienced profound, powerful resolution to emotional conflicts.

Adults also began to experience dolphin visions. The effectiveness of their healing was also accelerated and magnified by these dolphin experiences.

Scientific research now verifies that humans who swim with dolphin can and do experience authentic physical and emotional healing. D.N.A. changes have been observed. Through telepathic communication dolphins have introduced Kathryn to the healing system taught in this course. The healing system is filled with the loving, joyful, powerful essence of the dolphins who inspired its' development.

**Places to Stay:** [Places To Stay on the South Kona Coast of the Big Island of Hawaii](#)

## Students From Distant Lands

For those who travel from afar you must supply your own transportation, food and lodging. You will be provided with information to support you in creating your own retreat!!

Here is a varied list of great places to stay: [Places To Stay on the South Kona Coast of the Big Island of Hawaii](#)

Some have kitchen facilities.

I'm willing to connect you with others who are attending so you can potentially share lodging and car rentals.

I suggest that if you are traveling from far away you stay on The Big Island for two

to three weeks. The island is a place of extraordinary beauty with much to see and do. This is also the much recommended way to experience the profound experience of deeply connecting with the dolphins and the whales.
